Established in

1997, the Club 21

Program is committed

to supporting programs

for children affected by

disease.

As members of Club 21,

Altrusans are given an

opportunity to extend a

hand to these children

and their families.

Club 21

The Reach of Club 21

Ghana Health & Education Initiative (GHEI)

GHEI envisions a future where children - free from illness and illiteracy - can realize their full potential, a future where healthy, educated young people will lead their communities out of poverty. GHEI empowers communities in the BAB District of Ghana to build that future through investment in children and youth. The belief is that progress in health and education is best achieved by the community itself. Therefore, local individuals are empowered to lead.

Medicine for Mali

The Medicine for Mali mission is to collaborate with our partners in Mali, Africa in a sustainable approach to improve lives through medical aid, education, public health, micro-finance loans, and clean water while promoting friendship across cultures.

Camp Sunshine of Aurora, Ohio

In its seventh year, Camp Sunshine is a four-week long summer camp that supports children affected by a variety of needs including physical, neurological, sensory, and cognitive disabilities. Camp Sunshine encourages retention and growth of social, academic, and daily living skills. Camp activities include art, music, drama, cooking, sensory regulation, field trips, gross and fine motor activities, academic readiness, and swimming.

Camp Dreamcatcher of Kennett Square, Pennsylvania

Created in 1996, Camp Dreamcatcher provides free therapeutic and educational services for youth aged 5-25 impacted by HIV/AIDS. During the camp session, campers participate in 86 therapeutic, 46 educational, and 130 recreational programs. Over 265 counselors, medical personnel, professionals, and community members volunteer during the camp session. The camp session offers a safe place where children coping with HIV/AIDS can receive unconditional support and have fun!

Cavett Kids of Oklahoma

The Cavett Kids Foundation is the only organization in Oklahoma that provides a wide variety of six camps, various programs, and ten annual events for kids with life-threatening and chronic illnesses. Children and their families are provided support - at no cost - through teaching character, coping, and connection. The vision of Cavett Kids is that every child with a life-threatening illness deserves a chance to feel normal and to have a place where illness doesn't define them.

Camp Dreamcatcher of McLane Children's Hospital, Temple Texas

In its nineteenth year of operation, Camp Dreamcatcher is a fully accessible, therapeutic summer camp that provides activities adapted to the unique physical and medical needs of pediatric campers with cancer and blood disorders. Camp Dreamcatcher fosters independence and builds self-esteem and personal growth within these children. Physicians and researchers view camp as an extension of the patient's medical treatment and is essential to psychosocial support.
